Does this information reflect a change in the currently approved project schedule?

Yes

If yes, explain the reason(s) for change in the box below:

Revenue service is scheduled to commence by June 2006. The last piece of the project to be completed will be the Metro East Maintenance Facility (MME). The completion date has been extended for MME only. The original bid came in over budget. MUNI reduced the scope and repackaged in a CM/GC format with multiple subs in order to enable more DBE participation. Bids came in high again. MUNI reduced the scope further and repackaged MME as a single contract. The NTP for the contract was issued in September 2005, and work is now underway.

PROJECT FUNDING PLAN	
----------------------	--

Indicate amount in \$1,000s

[illegible]

***Does this information reflect a change in the currently approved project funding plan?***

No

*If yes, explain the reason(s) for change in the box below:*

Primarily given the delays with the MME (see schedule section), MUNI is in the process of forecasting the cost at completion for the project, and indications are that the cost will come in higher than the current budget. MUNI is working with the Authority to develop a reliable forecast, identify ways to reduce costs, and identify funding sources to fill the shortfall. We will submit an updated TCRP application when reliable information, including a funding strategy, is available.
